

## **Q - I have a baby/child without special needs who'd love to come to SPACE. Can we just turn up and play?**

A - No, sorry! We aren't a soft play centre and don't operate like they do. Our sensory rooms are privately booked by the hour at set time slots. That doesn't mean you can't visit though! Non-special needs babies/children have the following three options:

- 1) Hire a sensory room for yourself. It's £60 for an hour in SPACE 1 and you can fit up to 25 of you in there (depending on the childrens' age). Plenty of mums get together and split the cost between them. You are welcome to hire out SPACE 1 seven days a week; any time of morning, day or evening.

SPACE 2 is available for babies/pre-school groups ONLY (if you want to bring older siblings you must use SPACE 1) at the 09:30-10:30 slot, seven days a week. It's £65 for an hour in SPACE 2 and capacity for these group is 30 bodies.

- 2) We occasionally have 'Stay & Play' sessions when we have gaps in our bookings. These are at random times of the day/day of the week and will be advertised as a Facebook event. They are very popular and become fully booked within the hour so make sure you 'subscribe' to our FB events to receive a notification the second a 'Stay & Play' session is announced.
- 3) Hushabye Hands have baby massage and baby sign classes here at SPACE. They also have sessions within our sensory rooms which you could join in with. You must contact and book this directly with Hushabye Hands as they operate separately to us; they privately rent our rooms so we are not involved in their booking process. [www.hushabyehands.co.uk](http://www.hushabyehands.co.uk)

For parents/carers of anyone with special needs please contact us for further information about our prices and sessions.
